MIC 39 GOLF

FIT39 GLOVE

The FIT39 FREE-SIZE glove is a revolutionary advance in technology changing the whole concept of sports gloves. The FIT39 is designed to fit almost any hand by employing a special multi-directional stretch material and seams made using a new system.

Key features of the FIT39 glove:

- Fits snugly, regardless of the position or movement of the hand.
- Maintains a powerful grip and supports the hand firmly, even after extended use.
- Absorbs perspiration and dries quickly, preventing hands from becoming uncomfortably damp.
- Practically waterproof as well as being nonslip.
- Does not fade and therefore is washable.
- Durable and long lasting.

Comes in a wide variety of fashionable colours on a base black or white, sizes from SS, S, M, L and XL. Both Left and Right handed sizes suitable for all Juniors, Male and Female golfers

Made from Japanese multi-directional breathable material.

If any of the following apply to you, the FIT39 glove is what you are looking for.

- You cannot find a glove that fits properly, as the finger tips are too tight or too loose.
- You cannot find a glove that fits the size of your hand.
- Your grip weakens as you tire.
- Your grip weakens as your present glove becomes slipper from rain or perspiration.
- When your glove stretches from a round of golf.
- Your present glove becomes stiff when you keep it in your golf bag.
- Your present glove has faded or deteriorated over time.

The FIT range of gloves are a very tight fitting glove and generally may be larger in fit then your current size. With this in mind refer to the image below and measure your hand if unsure as to your size of glove. Place a tape measure around the hand as shown below, the centimetre reading will indicate the appropriate glove size (US size stocked).
